Judge Revokes Adult Probation

District Judge E .E. Jordan Monday revoked the adult probation of two men convicted of felonies in Randall County and ordered that they serve two to five years in prison.

The two were Ralph Henry Bartruff and Bobby Joe McKown. The probation was revoked because they failed to live up to the conditions set out by Judge Jordan.

Bartruff was orginally convicted on Nov. 21, 1955 for forging a check for $6.95 with the signature of Mrs. Van A. Bruner of Amarillo. He failed to meet his probation by failing to make restitution for the check and he was also convicted of burglary in King County, Washington, on April 30, 1957.

McKown was originally convicted on Aug. 26, 1957, of burglarizing the home of Mrs. V. K. McCaskill. He failed to meet his probation requirements by failing to obtain empioyment and by not paying court costs and attorney fees.

Hiring of 3 Coaches Completes Canyon School Faculty for Year

Three coaches hired Monday night by the Canyon school board completed the faculty for next year, Supt. Joe A. Gibson told the board.

Two of the coaches replaced Joe Brooks and Lynn Hulsey, who resigned last week, and the third will be the girls basketball coach and physical education teacher.

James Kauffman, 1958 graduate of West Texas State, was hired to replace Brooks and John Weldon Howle, 1956 graduate of Texas Western, will replace Hulsey.

Mrs. Marian Young will be the girls coach. She was graduated from WT this year.

Brooks will be an assistant coach at West Texas State this year, and Hulsey is going to Vega to become head football and basketball coach.

Howle, a native of Abilene, has played two seasons of professional football — one year with the Pittsburg Steelers and one year with the Washington Redskins. Last spring, he assisted Abilene Coach Chuck Moser in spring training.

An end, Howle was all Border Conference for three years while at Texas Western. He played for the Abilene Eagles from 1949 to 1952.

Kauffman was a starting tackle for the Buffaloes for the past two years, and was captain last season. He is from Levelland.

Voting Day Set On September 6

Canyon will have a $1 million school bond election on Sept. 6. The election was called Monday night at a special meeting of the school board.

The ballot will have two propositions, one for the bond election and one to put the school tax system under the provisions of Senate Bill 116. Both propositions will have to pass in order for the bonds to be sold.

The money will be used to construct a new high school building. The location has not been announced. Townes and Townes, architects of Amarillo, has been contracted to draw plans for the new building.

The bond election was called after presentation of petitions bearing 43 signatures requesting the election. The law requires at least 20 signatures.

Senate Bill 116 allows the tax system to divorce the maintenance tax from the debt service tax. At present, both are levied together and may not be larger than $1.50 per $100 valuation.

The bill was approved by the legislature so that school districts could sell bonds and pay them off without raising valuations. Under provisions of the bill, the maintenance tax may not be more than $1.50, and the school district may not issue bonds totaling more than 10 per cent of the total valuation in the district.

The bill provides that if the debt of the valuation, the maintenance tax cannot be more than $1.20 per hundred. If the debt is eight per cent, the maintenance tax can be more than $1.40. If the debt is less than seven per cent, the maintenance tax can be the full $.50.

If the bond issue passed, the bonds will be purchased by a combination of bond firms headed by Columbian Securities at an average rate of 3.72 per cent on a 23-year maturity schedule. The interest rate was negotiated last month.

In other action ,the board set the 1958 tax rate at $1.50 per hundred dollar valuation, the same as it has been for a number of years. Of the total rate, $1.14 is for maintenance and 36 cents is for debt service.

Public May Get Rodent Poison

Rat poison is available through the office of John Brazzil, county agent, on a non-profit basis to residents of Randall County.

The poison, made available through the Rodent Control Service, is a dry bait mixture composed of fumarin mixed with rat enticing ingredients.

Brazzil estimated that four pounds will give the average farm adequate control. Price of the poison is 25 cents a pound.

Our Turn To Form a State

Just about everyone else has taken the opportunity to editorialize about what Texas should do about being the second largest state — provided the people of Alaska decide they want statehood.

The two editors in Amarillo have decided on different things — one has been talking for years about a union of the Texas and Oklahoma Panhandles and Eastern New Mexico. The other has suggested a state in the Panhandle from Lubbock northward, with Amarillo as the capital.

The Big Bend country let off steam about a new state down there, and a New Mexico legislator has offered to annex part of Texas to New Mexico. There are nearly as many plans as people.

Texas is supposed to have the right to split into five states, but we doubt that we have that right any longer. The Supreme Court of the United States ruled part of the annexation treaty invalid in the tidelands case. We imagine the August court would rule the rest of the treaty invalid at the drop of a hat — or maybe if someone acted as if they were planning to drop their hat.

So why don't we take them at their word. The treaty is not valid, so Texas isn't part of the United States. We can pay the US government $3 million and retrieve the part of Texas that was parcelled to New Mexico, Colorado, Wyoming and Oklahoma, and begin again as an independent nation.

Let's set up a limited monarchy, with a king and royal family and a parliment. We can name our new nation the Monarchy of Texas, and we can use the ancient style for kings — each successive king takes the name of King Texian.

The youngest direct-line male descendent of Moses Austin could be the first King Texian, and we suppose that the family of Sam Houston could provide the first gueen when King Texian grows old enough to marry. We could make the Houston family, and some of the other old families, dukes or barons or whatever the right name is.

It would be all right for the people to elect the members of the legislature, and to make things even, the people could elect the prime minister — let's call him Ol' Tex. That way, Ol' Tex would have no power over the legislature and the legislature would have no power over Ol' Tex. Surely, one couldn't devise a more mixed-up mess.

We'd have to have some outstanding characteristics. We could devise a new method of taxation. Instead of taxing the people of the state, we could put export taxes on natural gas, sulphur, helium and Texas tall tales. That way, the United States would pay our taxes and we'd get off scot free. "No Taxes in Texas!" Boy, what a slogan.

With a tax free economy, we could invite other states to secede and join us. The rest of New Mexico and Colorado might well want to get in on that — taxes are reputed to be higher there.

Of course, the United States government is not going to stand by and let all this happen without squealing. But we could appeal to the United Nations and get Russia and the US to squabble about a summit meeting for long enough to get winter here. Then we could threaten to shut off the natural gas pipelines running to Yankeeland, and the US would give in so the people wouldn't freeze. Just like what used to happen when John L. Lewis called a coal strike in mid-winter.

We'd probably need an army, navy and air force — but that would be simple. We could call for all Texans in the US forces to come home, and we'd have all we needed. The boys in the Navy would have to have some way to get home, so they'd just bring their ships. And the same sort of thing would happen to the Air Force and Army. It might be that we'd have to give part of the stuff back to the US. We'd have more of it than they, seeing as how more Texans are in the services than from anywhere else.

This would give us a nice social setup — the sort of thing we have now, but then it would be official. The old families, who are content to live in the past, could have royal titles and could sit around talking about the "good, old times," The new families, hustling individuals, oil tycoons and others could run the country like they are doing anyway.

The palace and royal court could be down in the piney woods somewhere — it wouldn't matter much. The legislature would have to meet in Dallas, because that's the only city snooty enough.

In order to keep the downstate jokers from wielding too much weight and power, the owners of the land from where natural gas is taken could band together and periodically refuse to let any gas be taken out. The monarchy would have no revenue then, and would have to give in to the demands of the Panhandle.

Long live King Texian. Hooray for Ol' Tex. Up with the Monarchy of Texas. No taxes in Texas.

Amendment No. 2

The second amendment to be listed on the general election ballot in November would provide for the counties of the state to set up retirement, disability and death benefits for appointed and elected officers and employees.

The money, of course, would come directly from the taxpayers of the county. The system would work this way: The employee would contribute up to 7 1/2 per cent of his earnings and the taxpayers would match it.

The only saving clause in the amendment, to our way of thinking, is that the voters of each county would have to set up such a system.

We think the amendment should be defeated. And before all the courthouse employees jump down our throats, we would like to explain why.

We realize that none of the officials or employees are overpaid. And we realize that their salaries do not give them much of a chance to save any money for old age.

But we also know that the officials and employees know there was no retirement when they went to work .

If the amendment passed, and the retiremnt plan was set up, the people we hire to run our counties would be putting part of their pay into the retirement fund. And part of our tax would go into it.

If the employees donated part of their salary, they would have an even-smaller take-home pay — and the next thing you'd know, they'd all be wanting a raise. They wouldn't be making enough to live on.

In the end, the taxpayers of the county would be contributing the entire amount for the retirement program — the county's share and the employee's share. We plan to vote against the amendment.

I GIVE YOU TEXAS

By BOYCE HOUSE

You are walking along the street in New York City in 1958 when you see a few words on a poster and you're back in Fort Worth in 1937.

Billy Rose was in his suite in the Fort Worth Club in a swirl of activity as he planned the Casa Manana which was to open in a few weeks under the stars on the world's biggest revolving stage. It was afternoon but the little producer, not yet dressed for the day, was wearing a robe as he strode around talking, long distance, over a phone with a cord 20 feet long. (The reason I was there? I was the publicity director.)

The place was filled with people: John Murray Anderson, the director who had the task of making Rose's dreams realities; song-writers; a New York drama writer getting an interview in the bedlam ——when there came a buzz.

I opened the door and before me stood a man who was wearing a smock and a beret. Under his arm he had several big pieces of cardboard. In a piping voice, he said, "I want to see Mr. Rose."

To myself I muttered, "Another crack-pot," and to protect Rose from a nuisance, I responded, "I'm sorry; he's busy and can't see you" and closed the door.

Rose, who had heard the voice, shouted, "Let him in! He's the costumer designer!"

He was the foremost one in this field in the theater; his designs were bizarre, striking, startling and the coloring fantastic, rich, spectacular. I had shut the door in the face of a genius!

All of that far-away, long-ago scene came back when I saw a poster in front of a theater showing a Broadway hit: "Costumes designed by Raol Pene du Bois."

Mr. and Mrs. Glenn Williams and family spent Aug. 3 in the Booker, Tex., home of Mr. and Mrs. N. Lee Welch.

What Our Neighbors Say . . .

Scissor Snippings

From the Lynn County News: Rev. Bill Brooks now has an "official" allotment for his cotton crop at the First Baptist Church.

On Monday, he received the following from the ASC ofifce: "To Parson Brooks — This is to notify you of your 1958 upland cotton allotment of three stalks. If you have four stalks, pull up the sorriest one. Dee R. Green."

The preacher has a three stalk crop, and has been the recipient of a lot of kidding from the members of his congregation, some of whom told him he was producing cotton illegally and might have to suffer the consequences. The above seems to make his crop official.

☆ ☆ ☆

Paul Loftin in the Panhandle Herald: We're saying, "I told you so" this week, following the big announcement about Carson County's own M. R. (Nig) Calliham, as the new head of the Texas A&M school of veterinary medicine and surgery.

Paul of Panhandle tried to get the thick-skulled heads of Texas Tech to hire Nig as the head of the agriculture department, but no, they were not satisfied with the best qualified person, they had to go outside of the state and hire.

Texas A&M leaders recognized Nig's ability and just as soon as this important position became vacant, they immediately drafted Callihan.

☆ ☆ ☆

Deskins Wells in the Wellington Leader: The potiticians are having a lot of fun about slicing up Texas. Thus far Oklahoma has not invited the Panhandle to secede and join them. If it comes to that why don't we try to get Greer, Harmon and those other southwestern counties back in the state. However, as far as football is concerned it would not matter if the Panhandle became a part of Oklahoma. All of our best football players go to OU, anyway.

☆ ☆ ☆

Douglas Meador in the Matador Tribune: This New Mexico character who wants to cut a slice off Texas and increase the boundaries of his sanctuary for neurotics, should hurry back to the couch. He might as well attempt to subdivide Paradise.

☆ ☆ ☆

Bascom Nelson in the Castro County News: Then there's the story about the middle aged bachelor who decided one day that he was going to get married, but his wife would have to be a perfect woman. So he went all over the world looking for this perfect mate, spending years in the process. Finally, after many weary miles he found this girl who was perfection in every way-mind, body education, wit, cooking ability and charm. "Baby, I've come to marry you," he said. "Drop dead, you slob," she indignantly replied, "I'm waiting for the perfect man!"

The couple were united in marriage July 25 in a double ring ceremony, which was performed in Clovis, N. M., by Rev. Elbert J. Ryan.

Attending the wedding were Mr. and Mrs. J. P. Whelchel and James Roy of Claude and Mr. and Mrs. Ray Hickman and Pat of Amarillo.

Following the wedding trip to points of interest in New Mexico and Colorada, the couple are now making their home at 1206-B Eighth Avenue in Canyon.

The bride is employed by Southwestern Public Service Company of Canyon. The groom, a senior, will return to West Texas State College this fall. He expects to receive his degree in January.

A broken arm, like a trip to Europe or the first grandchild, opens new vistas of human relations. The druggist, the tailor, the woman up the street — in fact everyone who has ever been thru it and many who haven't—come to your aid.

The neighbors bring in food, run errands, bundle up your laundry to run through an automatic washer and dryer — "no trouble at all." A friend with long hair who once broke her arm comes in to comb your hair daily. At the beauty parlor, a soft pillow appears from nowhere to rest a tired arm. Flowers, jellies, pie, a sling for the broken limb — all the comforts of the ailing are at your command.

Makes you wonder where you were, what you were doing, when all these kind folks had their mishaps. Probably it was only a news brief to you at the time: "so-and-so broke a leg — what a shame!" And you're off to mend your own fences, without another thought for poor so-and-so, who has to live with his misfortune 24 hours a day for weeks or months.

Adversity brings out the best in people who are truly good. If they are the afflicted, they're so overwhelmed at the charity of others they're ashamed to complain about mere pain. If they are the givers of time and talent, they feel the warm glow of helping someone in need. And if they're merely onlookers, they cannot help but think, "Why should I be unhappy? Or frustrated? At least I'm all in one piece. That in itself is enough to be thankful for." And so they, too, are stretched into better beings.

If you're losing faith in your fellow man, here's a cure: Just break an arm! (The left one, please!)

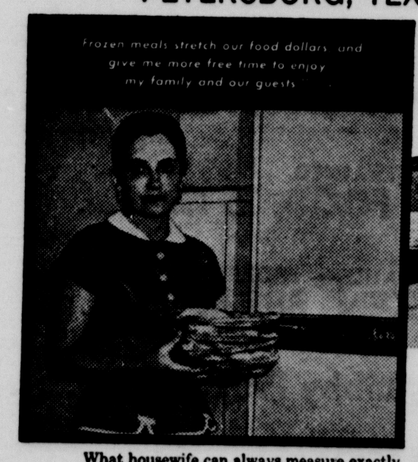
"Complete Meals from "extra" food made possible with my food freezer!"

says Mrs. Marvin Shurbet, PETERSBURG, TEXAS



What housewife can always measure exactly how much of each food her family will eat? Even the most exacting woman will occasionally have vegetables, meats and desserts "leftover." It's a shame to throw good food away and no one really likes to do that. Well, Mrs. Shurbet has solved that problem. Here's what she says, "When I cook more than my family eats at a meal, I put remaining servings on foil, divided plates, seal in SARAN WRAP*, and store in my food freezer. If additional portions are needed to make complete dinners, I simply add them from various meals."

NEWS LETTER

FROM CONGRESSMAN WALTER ROGERS OF THE 18TH CONGRESSIONAL DISTRICT

AIR PROBLEMS

The Congress last week, acting through the interstate and Foreign Commerce Committee, of which I am a member, favorably reported a bill designed for the purpose of meeting the challenges posed by the air problems of the future. Cumbersome methods of procedure, involved endless red tape in many instances, have been blamed by a number of air-minded people for the difficulties experienced in recent years in air traffic. These problems, of course, include the traffic crashes that resulted in the loss of many human lives.

The proposed bill is, in many respects, a new approach in political philosophy. Much power has been concentrated in one individual, probably more than has ever been concentrated in an individual regarding any single segment of the economy.

We have tried to temper these concentrated powers with certain safeguards that will prevent abuses or encroachments upon the constitutional rights of our people. But, I must warn that we are embarking upon a trial and error procedure that may produce many faults. The operations of this new air agency, known as the FAA, must be watched with the greatest alertness and villance.

We have undertaken to prevent its domination by the Military. Actually, the primary responsibility of the sucess of this operation will lie with the head of the civil government, to wit, the President of the United States, who, incidentally, is also Commander-In-Chief of all the armed forces of this nation.

Under our political philosophy, it must be remembered that the President is the Commander-In-Chief of the armed forces of this nation because he is the head of the civil government. He is not the head of the civil government because he is Commander-In-Chief of the Armed Forces.

In other words, it is highly important that this vital mode of transportation, which is not only interstate by its very nature, but also international and inter-continental, be controlled by the civil government; and, of course, that the military demands yield to the requirements of the civil government. Ample provision is made in the bill for full and complete use of air space for the defense of this country.

The bill is the product of the minds of the Administration, both civil and military; the air industry, itself, both in the production of aircraft owners and pilots, and the Members of Congress who have given much study to these problems through the years. The agency will be a highly technical agency whose primary responsibitity will be the lives and safety of those using the airways of this country. otheio Wtih laaa nmooi etaoieta

We are presently on the horizon of the age of jet propelled commercial aircraft. By this means we will be able to travel from coast to coast and from continent to continent in a space of a few hours, if not minutes. Our next horizon will be the advent of space travel.

It is a matter of life or death for our country, if not to us as individuals, that we keep abreast of the advance of civilization, particularly in this field.

LOCAL AIR MATTERS

Speaking of air matters, I received a letter from the CAA advising that, because of the air traffic growth at the Amarillo Air Terminal, a new approach lighting system has been allocated to that terminal. This system offers the pilot of a plane a vital margin of safety while landing the aircraft at night and during bad weather. It also makes the airport capable of a fastre aircraft acceptable rate.

Our section of the country is particularly adapted to the use of air travel because of our widely advertised great open spaces; therefore, all air accomplishments and betterments are of tremendous importance to us, as will be evidenced by future developments.

OTHER TRANSPORTATION

Legislation for the purpose of shoring up and stabilizing another mode of transportation was given final approval by the Congress last week. I refer to the Transportation Act of 1958, which reached its final form only after exhaustive research and study on the many problems plaguing the common carrier system of this nation.

Although I was not in complete agreement with the manner in which some of the problems were attacked, it is my feeling that the bill, as a whole, will provide the necessary balance that will enable the railroad industry to continue to successfully operate, and avoid the need for the nationalization of any segment of that industry.

A common carrier transportation system is as vital to a nation as the blood system is to a human being. Under the circumstances, when any branch or portion of that over-all circulatory system becomes impaired to the extent that those operating that particular branch can no longer do so as a private enterprise, the burden falls upon the government to assume the operation thereof in order to provide the complete system necessary.

This, of course, is the first step toward final nationalization of an industry, which is one thing that we must avoid if we are to continue the free, competitive enterprise system upon which this nation was built.

Visiting in the office was Mrs. Elizabeth Murray, whose husband, Gene Murray, is stationed at Fort Meyer, Virginia. The Murrays will be leaving within the next few days for Canyon, where Mr. Murray will be associated with the Canyon Public Schools as assistant band director.

SJR #3—Number Nine on the Ballot.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958.

SENATE JOINT RESOLUTION NO. 3 proposing an amendment to Article IX of the Constitution of the State of Texas, by adding thereto a new section to be known as Section 5, to provide that the Legislature may authorize the creation of a Hospital District coextensive with the incorporated limits of the City of Amarillo, Texas; authorizing the County of Potter to render financial aid to and participate in the operation of such Hospital District; authorizing the Commissioners Court of said county to assess and levy taxes on property outside the incorporated limits of such city; further authorizing a countywide Hospital District for Wichita County, Texas, and authorizing the creation of two districts in Jefferson County; and further providing that any enabling Acts shall not be invalid because of their anticipatory character.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article IX of the Constitution of the State be, and the same is hereby amended by adding thereto another section to be designated as Section 5, which shall read as follows:

"**Section 5 (a) The Legislature may** by law authorize the creation of two hospital districts, one to be coextensive with and have the same boundaries as the incorporated City of Amarillo, as such boundaries now exist or as they may hereafter be lawfully extended, and the other to be coextensive with Wichita County.

"If such district or districts are created, they may be authorized to levy a tax not to exceed Seventy-five Cents (75¢) on the One Hundred Dollars ($100.00) valuation of taxable property within the district; provided, however, no tax may be levied until approved by a majority vote of the participating resident qualified property taxpaying voters who have duly rendered their property for taxation. The maximum rate of tax may be changed at subsequent elections so long as obligations are not impaired, and not to exceed the maximum limit of Seventy-five Cents (75¢) per One Hundred Dollars ($100.00) valuation, and no election shall be required by subsequent changes in the boundaries of the City of Amarillo.

"If such tax is authorized, no political subdivision or municipality within or having the same boundaries as the district may levy a tax for medical or hospital care for needy individuals, nor shall they maintain or erect hospital facilities, but the district shall by resolution assume all such responsibilities and shall assume all of the liabilities and obligations (including bonds and warrants) of such subdivisions or municipalities or both. The maximum tax rate submitted shall be sufficient to discharge such obligations, liabilities, and responsibilities, and to maintain and operate the hospital system, and the Legislature may authorize the district to issue tax bonds for the purpose of the purchase, construction, acquisition, repair or renovation of improvements and initially equipping the same, and such bonds shall be payable from said Seventy-five Cents (75¢) tax. The Legislature shall provide for transfer of title to properties to the district.

"**(b) The Legislature may** by law permit the County of Potter (in which the City of Amarillo is partially located) to render financial aid to that district by paying a part of the expenses of operating and maintaining the system and paying a part of the debts of the district (whether assumed or created by the district) and may authorize the levy of a tax not to exceed Ten Cents (10¢) per One Hundred Dollars ($100.00) valuation (in addition to other taxes permitted by this Constitution) upon all property within the county but without the City of Amarillo at the time such levy is made for such purposes. If such tax is authorized, the district shall by resolution assume the responsibilities, obligations, and liabilities of the county in the manner and to the extent hereinabove provided for political subdivisions having boundaries coextensive with the district, and the county shall not thereafter levy taxes (other than herein provided) for hospital purposes nor for providing hospital care for needy individuals of the county.

"**(c) The Legislature may** by law authorize the creation of a hospital district within Jefferson County, the boundaries of which shall include only the area comprising the Jefferson County Drainage District No. 7 and the Port Arthur Independent School District, as such boundaries existed on the first day of January, 1957, with the power to issue bonds for the sole purpose of purchasing a site for, and the construction and initial equipping of, a hospital system, and with the power to levy a tax of not to exceed Seventy-five Cents (75¢) on the One Hundred Dollars ($100.00) valuation of property therein for the purpose of paying the principal and interest on such bonds.

"The creation of such hospital district shall not be final until approved at an election by a majority of the resident property taxpaying voters voting at said election who have duly rendered their property for taxation upon the tax rolls of either said Drainage or said School District, nor shall such bonds be issued or such tax be levied until so approved by such voters.

"The district shall not have the power to levy any tax for maintenance or operation of the hospital or facilities, but shall contract with other political subdivisions of the state or private individuals, associations, or corporations for such purposes.

"If the district hereinabove authorized is finally created, no other hospital district may be created embracing any part of the territory within its boundaries, but the Legislature by law may authorize the creation of a hospital district incorporating therein the remainder of Jefferson County, having the powers and duties and with the limitations presently provided by Article IX, Section 4, of the Constitution of Texas, except that such district shall be confirmed at an election wherein the resident qualified property taxpaying voters who have duly rendered their property within such proposed district for taxation on the county rolls, shall be authorized to vote. A majority of those participating in the election voting in favor of the district shall be necessary for its confirmation and for bonds to be issued.

"**(d) Should the Legislature enact** enabling laws in anticipation of the adoption of this amendment, such Acts shall not be invalid because of their anticipatory character."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at the general election to be held the first Tuesday after the first Monday in November, 1958, at which election all ballots shall have printed thereon:

"**FOR the constitutional amendment** authorizing the Legislature to create a Hospital District coextensive with the incorporated limits of the City of Amarillo, Texas, and authorizing Potter County to lend financial aid to and participate in the operation of said Hospital District, and further authorizing the Legislature to create a county-wide Hospital District in Wichita County, Texas, and Hospital Districts in Jefferson County, Texas."

"**AGAINST the constitutional amendment** authorizing the Legislature to create a Hospital District coextensive with the incorporated limits of the City of Amarillo, Texas, and authorizing Potter County to lend financial aid to and participate in the operation of said Hospital District, and further authorizing the Legislature to create a county-wide Hospital District in Wichita County, Texas, and Hospital Districts in Jefferson County, Texas."

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the constitution and laws of this state.

Church Begins Revival Sunday

The Pentecostal Holiness Church 1401 Fifth Avenue, will begin a revival Sunday and will continue it through Aug. 31.

Rev. Raymond R. Robinson of San Jose, Calif., the evangelist, will be bringing the gospel both in sermon and in song. There will be special singing by the Rev. Robinson and other special singers in every service. Services will be held at 7:45 p.m. daily.

Rev. Carl Wagner, pastor, has extended an invitation to the public to attend the meetings.

Babe Ruth Plans Monthly Meetings

Monthly meetings of persons interested in the Babe Ruth League were voted at a meeting Monday night. The first monthly meeting will be in October, and the order of business will be the election of officers.

Plans are for the meetings to be held the first Monday of each month.

It was announced Monday that lights have been assured for the next season, and the schedule for play has been set for 8 p.m. on Monday, Tuesday, Thursday and Saturday nights. It is expected that the schedule will begin in May

The park has been seeded, and a committee has been appointed to meet with the city commission to consult on the most practical method of watering.

Also discussed was the possibility of holding the player auction in the near future in order to assimulate the Little League graduates into the Babe Ruth program now rather than next spring.

The problem of obtaining umpires was discussed, and it was suggested that umpires be paid for each game. Discussion is expected at later meetings.

Another matter of discussion was an attempt to dovetail the Babe Ruth and Little League schedules so that parents who live in the country can make up car pools to bring players to the games on the same nights.

Financing the Babe Ruth league was talked over, and it is expected that continued interest in voluntary donations will keep the program at work.

Included in the discussion was the formation of an American Legion team to be made up of graduates of the Babe Ruth League and other boys of the same age group. At present the idea is only in the talk stage.

The second half of the season, which ended Saturday night, ended the same as the first half with the Giants winning six and losing three; White Sox winning five and losing four; Pirates winning four and losing five and Cardinals winning three and losing six.

The monthly meetings of the league will be in the West Texas State fieldhouse.

WT Geography Tour Visits Yellowstone

The West Texas State College geography tour, under the direction of Dr. M. B. Measamer, head of the geography department, began the last lap of the summer trip by visiting Yellowstone National Park.

Traveling over many of the park's trails on foot, members of the tour took several hundred pictures which will be shown to school children in Texas, Oklahoma, New Mexico, Colorado, California and Arizona.

Prior to Yellowstone, the group visited Lake Louise, Alberta, Canada, a fantastic sight for the group. The 39 members of the party were taken on a guided tour through the Canadian Rockies to see various glaciers and glacial formations.

Athabasca Glacier, the largest remnant of the ice age south of Alaska, was the "end of the trail" on the Canadian expedition. At Athabasca the group boarded snowmobiles and rode out on the ice about one and one-half miles. The ice at that point was appriximately 1,000 feet thick. Holes in the glacier were as deep as 350 feet.

Salt Lake City is the next major stop for the tour, which carries six semester hours at WT.

Eloyce Money, daughter of Mr. and Mrs. Ed Money, arrived home Sunday from Glendale, Calif., for a month's vacation. She will graduate from Glendale School of Nursing on November 23.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

The supervisors of the Randall-Potter Soil Conservation District, in their regular meeting last week, approved cooperative agreements with the following farmers: Guy Haynes, W. D. Owen, C. K. Cloud, J. A. King and John K. Wright.

Marshall Rockwell, Jr. reports that the inter-row legume seeder "works real good." Marshall planted 60 acres of vetch in his growing row crop. The only trouble he had was in setting the drill for the desired amount of seed. The machine is adjustable for different width rows.

There will be two rows of vetch between the rows of maize. The seeder will seed between three rows. Anyone who wants to use this seeder can obtain it from the FFA Supervisor at the Canyon High School. The rental rate for the inter-row seeder was set at 50c per acre.

The Great Plains Conservation Program is progressing and so far we have two contracts in Randall County. If you are interested in this program contact one of the SCS technicians assisting the Randall-Potter SCD. The technicians will be glad to discuss the program and help you work out a conservation plan.

The Randall-Potter Soil Conservation District was organized to help the farmers and ranchers in Randall and Potter Counties in soil and water conservation work. If you have a conservation problem, please feel free to call upon the District Supervisors or the technicians of the Soil Conservation Service who are assisting the District.

Dimmitt, Tex., Man Reports—
"Ammonia makes a big difference in my wheat"

Frank S. Wise, who farms 960 acres near Dimmitt, says: "I know from experience that Phillips 66 Agricultural Ammonia makes a big difference in my wheat yields. I figure I'm getting an average of 20 bushels more to the acre by putting down 80 to 100 pounds of Phillips ammonia pre-plant."

Other successful Southwestern farmers use Phillips 66 ammonia to give them higher grain yields . . . and more profitable grazing. The 82% nitrogen in Phillips 66 Agricultural Ammonia gives young wheat a fast start, supplies plenty of lush, protein-rich forage that puts on more beef at less cost per pound.

Many of these farmers plow down Phillips 66 ammonia in the fall on maize land. They know that 82% nitrogen helps decompose crop residue, to provide extra plant food and make the soil more productive. Remember, Phillips 66 ammonia gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

Highlights and Sidelights From Your State CAPITOL

By VERN SANFORD
Texas Press Association

Although the main bout of the political summer is over, there's still considerable commotion ahead.

Generating a little extra heat during the scorching weeks ahead will be these events:

STATEWIDE RUNOFF: Only one race for statewide office, a place on the Supreme Court, remains to be decided at the Aug. 23 primary. Contenders are Robert W. Hamilton of El Paso and J. Edwin Smith of Houston.

In a one-contest race like this, the candidates' big problem is likelihood of being ignored. A tiny segment of authorized voters could tip the election.

State Democratic Chairman Jim Lindsey has reminded couty chairmen that the law requires that they hold a runoff primary — even if it's just for one race. In some 100 counties there are no local races going into a runoff.

LEGISLATIVE RUNOFFS: Winners of 33 legislative posts are yet to be decided.

Included are three campaigns to decide successors of retiring Senators Ottis Lock of Lufkin, Searcy Bracewell of Houston and Carlos Ashley of Llano. All of the 28 senators already definitely "in" are incumbents.

In the House, also, it appears to be a good year for incumbents. Out of a membership of 150, 101 won out in the first primary or had no opponent.s

Nineteen nem members were elected to the House in July, and winners of 30 seats are yet to be decided. Twelve incumbent representatives are involved in these runoffs.

SPEAKERSHIP RACE: Hanging in the balance of the 30 House of Representatives runoff races is the outcome of months of persistent campaigning for one of the key posts in state government — Speaker of the House.

Speaker is elected by fellow House members. Candidates are Rep. Waggoner Carr of Lubbock, seeking a second term, and Rep Joe Burkett Jr. of Kerrville.

After the July primary, each claimed to have 45 per cent of House members pledged to his side. This is not literally possible since only 80 per cent of the total membership has been elected.

But it illustrates the nip 'n tuck nature of the contest that probably won't be over until the last chip is down.

STATE DEMOCRATIC CONVENTIOON: Climax to the precinct and county conventions — and all the struggle that preceeded them — will be the state meeting in San Antonio Sept. 9.

It's known traditionally as the "governor's convention" with the nominee for governor and his supporters taking the lead in deciding on officials, committees and policies for the next two years.

Gov. Price Daniel, who worked harder at rallying moderate-conservative Democrats to precinct conventions than at his own race for renomination, predicts a comfortable margin of supporters at the state meeting.

BETTER DAYS

More students, more prosperous profs are in prospect on the campuses of Texas state colleges and universities this fall.

Commission on Higher Education predicts a total enrollment of more than 81,000 at the 18 tax-supported colleges, up from last year's 77,913. Beginning this year, a growing flood of college students is expected as the high schools turn out the "war babies" of the 1940's.

Pay raises up to 20 per cent will begin in September for the state college teachers. It will put the "average" professor's annual salary between $5000 and $7000.

DRAGNET FOR LOAN SHARKS

Atty. Gen. Will Wilson filed suits in an Austin district court in an effort to squelch a new scheme for charging excessive interest on small loans.

Wilson's suit attacked "brokerage fees' being charged by some small loan companies in Austin. Texas Constitution limits interest rates to 10 per cent. But "loan sharks" have been getting around this, says an assistant attorney general. They charge a legal rate of interest, then tack on a large "broker's fee," presumably for arranging the loan.

Until last spring, when credit insurance rates were sharply reduced, excessive insurance charges were regarded as the favorite dodge of lenders in getting around the 10 per cent limit .

Attorney General Wilson is asking the court to enjoin the loan companies from using "any indirect methods" of evading the law.

Efforts to pass measures strengthening the state's anti-usury laws have had uphill going in past Legislatures. New tries are certain next year, some probably aimed at establishing a higher legal interest rate for small, unsecured, short-term loans than for long-term, secured loans .

Brazzil Reports Maize Attacks

County agent John Brazzil is warning farmers against attacks of false cinch bugs on young maize. With several attacks already reported, more are anticipated, according to Brazzil.

"False cinch bugs usually attack maize in the milk stage and suck the juice, or milk, from the grain," Brazzil said. "The attack lasts from two to three weeks, or until the maize grains harden with maturity."

The way to spot an attack is a change in color on the heads on the outside rows or in circles along the fringes of the field. The false cinch bugs spread progressively through the fields.

"We can only recommend two sprays, Malathion and Toxaphene, since spraying may leave a toxic residue," Brazzil said.

He emphazied that the sprays must be applied properly by reputable applicators so that toxic residues would not be left on grains, particularly grains intended for on-the-farm consumption or the commercial trade market.
